University Hospitals CompCare is the workers’ compensation managed care organization (MCO) of choice for more than 12,000 Ohio employers seeking the highest levels of quality care, service and professionalism for their injured workers.

Partner with Us!

- Northeast Ohio-based MCO that is renowned for quality care because it is part of University Hospitals
- Strong, personalized customer service
- Proven return-to-work results
- Discounts on treatment provided by members of the University Hospitals Provider Network
- The ability to deliver “a continuum of care” through our affiliation with University Hospitals Corporate Health

Local MCO, Quality Care

Certified by the Ohio Bureau of Workers’ Compensation (BWC), University Hospitals CompCare is a high-quality and compassionate MCO focused on managing the care of injured workers in Ohio and helping them return to work. By working as a team internally and partnering with employers, employees and medical providers externally, University Hospitals CompCare simplifies and streamlines the managed care process.

As part of University Hospitals, Ohio’s premier health care delivery system, University Hospitals CompCare is one of the few workers’ compensation MCOs in the state with a legacy of local health care excellence. Our large provider and facility network treats work-related injuries across Ohio.

**Providers include:**
- Primary care physicians
- Occupational medicine specialists
- Orthopedic specialists
- Neurologists
- Rehabilitation medicine and other specialists

**Facilities include:**
- Ambulatory and urgent care centers
- Hospitals
- Rehabilitation facilities

Our mission statement:

University Hospitals CompCare is committed to *exceptional* customer service in the management of care for Ohio’s injured workers.
Proven Return-to-Work Results
University Hospitals CompCare focuses on facilitating a timely, safe and productive return-to-work. Nurse case managers develop individual plans to guide the return-to-work process in even the most difficult cases, and facilitate regular problem-solving contact with the health care provider, employer and injured worker. These plans often include the use of transitional duty and job accommodations, which can save companies money, boost morale, and improve productivity and quality.

Exclusive Endorsement
University Hospitals CompCare has received the exclusive endorsement of the Northern Ohio Area Chambers of Commerce (NOACC), and is the only MCO ever recommended by NOACC to its member chambers. NOACC, the largest chamber of commerce association in Ohio, is a regional partnership of more than 100 community-based chambers of commerce.

University Hospitals Corporate Health – A Continuum of Care
University Hospitals CompCare is affiliated with University Hospitals Corporate Health (UHCH), which provides job-related health care expertise and services to help public and private employers meet their corporate health care needs – at convenient locations throughout Northeast Ohio.
